

FREEDOM REDEFINED —

# The Solutions V2L Adapter for unlimited power

CEE blue (16 A)

Safety plug  
(10 A)

#### VERSATILE

Whether you go camping at a festival, work remotely or on a construction site, the V2L adapter provides power wherever grid electricity is unavailable

#### IMPRESSIVE CAPACITY

The capacity of a standard EV battery suffices to operate energy-intensive devices for several days, e.g. lights, refrigerators or music systems

#### MAXIMUM COMPATIBILITY

In development: cross-brand compatibility with almost all EVs and compliance with international standards

#### CAN BE USED WORLDWIDE

Suitable for various plug types, such as safety plugs or the single-phase CEE plug

#### RELIABLE PERFORMANCE

Delivers 230 V / 50 Hz in Europe or 120 V / 60 Hz in the USA as required

The Solutions V2L Adapter transforms every electric vehicle into a mobile power outlet.

At the campsite, for gardening or on the road: Our V2L discharge adapter the energy of the EV battery available for electrical camping accessories, power tools or for charging laptops and smartphones. Fully flexible and mobile.

As we develop independently of brands, we offer maximum compatibility for all EVs that support the upcoming international V2L standard.

Our V2L connector adapts to regional power requirements and plug types. Whether with a multi-plug of types F, C and L that can be used in most European countries or with a single-phase CEE coupler – the V2L charger automatically regulates the output of the appropriate voltage and current. With presets suitable for Europe and the USA, the adapter can be used worldwide.

Expand your range of accessories and offer your customers a new level of independence in powering their devices on the go – anytime, anywhere!

IN DEVELOPMENT

HIGH QUALITY WITH A VISION —

# INNOVATION. DEVELOPMENT. SOLUTIONS.

Wentronic Solutions develops and produces electronic components and assemblies according to specific customer requirements.

Our particular focus is on our extensive expertise in hardware and software development, which is integrated into every development process from the outset – individually and at the highest level.

With our extensive experience in the field of customised product development and manufacturing, we create the perfect solution tailored to your needs.
